

Veröffentlichungen zum Thema "Östrogene Wirkungen"

Begutachtete Originalmitteilungen

Schwaiger J., Negele R.D. (1998): Plasma vitellogenin - a blood parameter to evaluate exposure of fish to xenoestrogens. *Acta Vet. Brno* 67: 257-264

Schwaiger J., Spieser O.H., Bauer C., Ferling H., Mallow U., Kalbfus W., Negele R.D. (2000): Chronic toxicity of nonylphenol and ethinylestradiol: behavioral, haematological and histopathological effects in juvenile carp (*Cyprinus carpio*). *Aquat. Toxicol.* 51 (1), 69-78

Spieser O.H., Schwaiger, J., Ferling, H., Negele, R.-D. (2000): An introduction to behavioral monitoring - effects of nonylphenol and ethinyl-estradiol on swimming behavior of juvenile carp. In: Butterworth F.M., Gunatilaka G., Gensebatt M.E. (Eds.), *Biomonitoring and biomarkers as indicators of environmental change*, Volume II. Plenum Publishing Corp., New York, 93-112

Körner, W., Bolz, U.; Triebkorn, R., Schwaiger, J., Negele, R.D., Marx, A., Hagenmaier, H. (2001): Steroid analysis and xenosteroid potentials in two small streams in southwest Germany. *J. Aquat. Ecosyst. Stress Recov.* 8, S. 215-229

Schwaiger J., Mallow U., Ferling H., Knoerr S., Braunbeck T., Kalbfus W., Negele R.D. (2002): How estrogenic is nonylphenol? A transgenerational study using rainbow trout (*Oncorhynchus mykiss*) as test organism. *Aquat. Toxicol.* 59, 177-189

Ackermann, G.E., Schwaiger, J., Negele, R.D., Fent, K. (2002.): Long-term exposure of juvenile rainbow trout to environmentally relevant concentrations of nonylphenol results in elevated vitellogenin and zona radiata protein expression. *Aquat. Toxicol.* 60 (2002), S. 203-221

Bögi, C., Schwaiger, J., Ferling, H., Mallow, U., Steineck, C., Sinowatz, F., Kalbfus, W., Negele, R.D., Lutz, I., Kloas, W. (2003). Endocrine effects of environmental pollution on *Xenopus laevis* and *rana temporaria*. *Environ. Res.* 93, 195-201

Veröffentlichte Tagungsbeiträge und Abstracts

Schwaiger J., Wörle B., Nardy E., Bauer C., Braunbeck T., Islinger M., Kalbfus W., Negele R.D. (1997): Toxic effects of nonylphenol on rainbow trout (*Oncorhynchus mykiss*) and common carp (*Carpio carpio*) with special emphasis on estrogenicity. In: *Society of Environmental Toxicology and Chemistry (Veranst. und Hrsg.): 7th SETAC-Europe Annual Meeting, Amsterdam, The Netherlands: Eigenverlag*, p. 44

Wörle B., Schwaiger J., Nardy E., Bauer C., Braunbeck T., Islinger M., Kalbfus W., Spieser O.H., Negele R.D. (1997): Does nonylphenol induce estrogenic and other sublethal effects in fish? In: *European Association of Fish Pathologists (Veranst. und Hrsg.): 8th International Conference "Diseases of Fish and Shellfish", Edinburgh, U.K. : Eigenverlag*, p. 6

- Schwaiger J., Wörle B., Negele R.D. (1998): Wirkungen endokriner Umweltchemikalien auf Fische – dargestellt am Beispiel Nonylphenol. In: GSF-Forschungszentrum für Umwelt und Gesundheit, GmbH (Veranst. und Hrsg.): Hormonell wirksame Umweltchemikalien – Gefahr für Mensch und Tier. GSF-Bericht16/98, pp. 11-13
- Schwaiger J., Wörle B., Spieser O.H., Kalbfus W., Negele R.D. (1998): Effects of nonylphenol on fish: test design and preliminary results. In: Umweltbundesamt (Hrsg.): Effects of endocrine disruptors in the environment on neuronal development and behaviour - Current knowledge, assessment, gaps. UBA Texte 50/98, pp. 112-113
- Schwaiger J., Knörr S., Braunbeck Th., Wörle B., Kalbfus W., Negele R.D. (1999): Effects of the xenoestrogen nonylphenol on various life stages of rainbow trout (*Oncorhynchus mykiss*). In: International Society of Ecotoxicology and Environmental Safety (Veranst. und Hrsg.): 5th European Conference on Ecotoxicology and Environmental Safety. München, Germany: Eigenverlag, p. O F4
- Nardy E., Schwaiger J., Schmidt P., Negele R.D., Schmahl W. (1999): The use of stereological methods to estimate endocrine disruption at the pituitary level in rainbow trout (*Oncorhynchus mykiss*). In: International Society of Ecotoxicology and Environmental Safety (Veranst. und Hrsg.): 5th European Conference on Ecotoxicology and Environmental Safety. München, Germany: Eigenverlag, p. O F5
- Schwaiger J., Spieser O.H., Nardy E., Kalbfus W., Braunbeck Th., Negele R.D. (1999): Toxic effects versus endocrine disruption - does the xenoestrogen nonylphenol influence physiological functions of fish? In: Society of Environmental Toxicology and Chemistry (Veranst. und Hrsg.): 9th Annual Meeting of SETAC-Europe, Leipzig, Germany: Eigenverlag, p. 52
- Körner W., Bolz U., Triebkorn R., Schwaiger J., Negele R.D., Kalbfus W., Marx A., Hagenmaier H. (1999): Multiple monitoring of estrogenic active substances in small rivers in South Germany. In: Society of Environmental Toxicology and Chemistry (Veranst. und Hrsg.): 9th Annual Meeting of SETAC-Europe, Leipzig, Germany: Eigenverlag, p. 50
- Schwaiger J., Braunbeck Th., Negele R.D. (1999): Transgenerational effects of the xenoestrogen nonylphenol in rainbow trout (*Oncorhynchus mykiss*). In: European Association of Fish Pathologists (Veranst. und Hrsg.): 9th International Conference "Diseases of Fish and Shellfish", Rhodes, Greece: Eigenverlag, p. O-045
- Nardy E., Schwaiger J., Negele R.D., Schmidt P., Schmahl W. (1999): Influences of the endocrine disrupting chemical nonylphenol on the endocrine system in rainbow trout (*Oncorhynchus mykiss*). In: European Association of Fish Pathologists (Veranst. und Hrsg.): 9th International Conference "Diseases of Fish and Shellfish", Rhodes, Greece: Eigenverlag, p. O-043
- Schwaiger J., Negele R.D. (2000): How "estrogenic" is Nonylphenol? – Results from a complete life cycle test using rainbow trout as test organism. In: Society of

Environmental Toxicology and Chemistry (Veranst. und Hrsg.): 10th Annual Meeting of SETAC-Europe, Brighton, U.K.: Eigenverlag, p. 24

Schwaiger, J., Kalbfus, W., Lausterer, R., Braunbeck, T., Negele, R.D. (2001). Do elevated vitellogenin levels due to xenoestrogen exposure necessarily imply feminization of male fish? In: Society of Environmental Toxicology and Chemistry (Veranst. und Hrsg.): 11th Annual Meeting of SETAC-Europe, Madrid, Spanien 2001. Eigenverlag, 2001. - Tagungsband, S. 194

Schwaiger, J., Kalbfus, W., Braunbeck, T., Lausterer, R., Negele, R.D. (2002). Effects of environmental estrogens in fish populations. In: Journal of Steroid Biochemistry & Molecular Biology (Veranst. und Hrsg.): 15th International Symposium of the Journal of Steroid Biochemistry & Molecular Biology: Recent Advances in Steroid Biochemistry & Molecular Biology, München 2002. Eigenverlag, 2002.- Tagungsband, S. 8-L

Boegi, C., Schwaiger, J., Ferling, H., Mallow, U., Steineck, C., Kalbfus, W., Negele, R.D., Lutz, I., Kloas, W. (2002): Endocrine effects of environmental pollution on amphibians. In. Bundesministerium für Bildung und Forschung und Umweltbundesamt (Veranst.); Richter, A., Olazabal, U. (Hrsg.): Proceedings of the "Second Statusseminar on endocrine disruptors", Berlin 2001, Eigenverlag, 2002.- Tagungsband, S. 73
