Kommune: Bad Birnbach; Bayerbach

A map showing the course of the Aidenbach river, which flows from the south through Aidenbach and then turns north to join the Leitha near Pöndorf. The map also shows the neighboring towns of Pöndorf to the west and Wolfsthal to the east.

A map showing the river network in the Sölden area. The main river, Söldenbach, flows from the south through the town of Sölden. It is joined by the Ardenbach from the west and the Reutzbach from the east. The Unterbach joins the Söldenbach further downstream. The town of Sölden is located at the confluence of the Reutzbach and the Söldenbach.

A map segment showing the Würm River flowing from Johanniskirchen through Beuelsbach to Unteriglbach. The river is depicted in blue, and the surrounding area is in light green. The town names are written in black text. A yellow dashed line highlights the river's path through the valley.

A map showing the location of Eggelham and Dorfbach. The map includes a river, a bridge, and a road. The town of Eggelham is labeled with a blue dot and a yellow line. The town of Dorfbach is labeled with a blue dot and a yellow line. The map is oriented with North at the top.

A map showing the river course of Haarbach, with the river flowing generally eastward through a valley. The map includes contour lines and a small legend in the bottom right corner.

A map showing a river network with several tributaries. A red rectangular box highlights a section of the river and its tributaries in the lower-left quadrant, centered around the town of Dietersburg. The map also includes labels for Bauland, Schmidham, and Blitzen.

A map of the Birmingham area showing the location of the Birmingham Canal Navigations. The map highlights the network of canals in red, with the Birmingham Canal Navigations specifically marked in blue. The map also shows the location of the Birmingham Canal Navigations in relation to the River Tame and the town of Birmingham.

A map showing the K01 route, which starts at Hirschbach and ends at Bad Birnbach. The route is marked with a yellow line and red markers. A blue line indicates a river, and a green line indicates a railway. The map also shows the location of Reichenberg and Bad Griesbach.

A map showing the Azenbachschlucht area. The Azenbach river is depicted as a blue line flowing through the valley. The town of Altrott is marked with a yellow dot and labeled 'Altrott'. The number '453' is in the top right corner.

A map showing the river Altbach in the town of Triftern. The main river flows from the bottom left towards the top right, with several tributaries joining it along the way. The town of Triftern is indicated by a grey polygon. A yellow line highlights a specific stretch of the river, and a yellow box labeled 'Altbach' points to this section. The map also shows the 'Trifternbach' river and various streets and buildings within the town boundaries.

A map showing the river Leitha flowing through the area around the town of Kößlarn. The river is depicted in blue, with its course winding through the landscape. Several towns are labeled in black text: 'Leukirchen' to the west, 'Wettmannstätten' to the north, and 'Kößlarn' to the east. The map also shows various roads and other geographical features in a light gray color.
