WFD & FD Public Participation Plan

regarding public consultation and communication in the course of developing the 3rd Danube River Basin Management Plan and the 2nd Flood Risk Management Plan for the Danube River Basin, both for the implementation cycle 2015 to 2021

Version: draft_v3
Date: 2018-05-16
Document IC 209-revised
Table of contents

1. Introduction 4
2. Timeline and Framework 5
3. Consultation Measures 6
4. Annex 8
1. Introduction

As part of the efforts to coordinate the implementation of the EU Water Framework Directive (Directive 2000/60/EC) and EU Floods Directive (Directive 2007/60/EC) in the entire Danube River Basin, the ICPDR, in its role as coordinating platform, has put a special emphasis on the promotion of public participation and the implementation of certain communication activities. These activities are carried out (1) on the basis of the legal requirements defined in the two mentioned directives and (2) in accordance with the ICPDR communication approach (see Annex).

It focuses on the basin-wide level and is complementary to the public participation processes on the national and sub-basin levels, which follow closely Article 14 of the WFD and its timetable, as well as Art. 10 of the EFD with its more open provisions. The document is divided into (1) an internal discussion paper and (2) a general section that will be made available to the public for comments for six months.

*General Section for public comments starts here.*
2. Timeline and Framework

This document serves as a blueprint for Public Participation activities for the development of the 3rd Danube River Basin Management Plan (3rd DRBMP) until 2021 and the DRB Flood Risk Management Plan (2nd FRMP). It deals with public participation on the basin-wide, international level. The legal requirements described in EU Water Framework Directive (Directive 2000/60/EC) and EU Floods Directive (Directive 2007/60/EC) result in the following general timeframe for activities:

WFD: Publication of timetable, work program and statement on consultation measures (December 2018); collection of comments, revision and endorsement (June 2019); publication of interim overview on SWMIs (December 2019); collection of comments, revision and endorsement (June 2020); publication of a draft management plan (end of 2020); collection of comments (June 2021); revision and endorsement (end of 2021).

EFD: Publication of Preliminary Flood Risk Assessment; Publication of Flood Risk Maps and Flood Hazard Maps (March 2020); development of 2nd FRMP, with active encouragement of interested parties to get involved (December 2020); revision and adoption of 2nd FRMP, with active encouragement of interested parties to get involved (December 2021). As far as PP is concerned, efforts should be aligned with the provisions of the WFD as appropriate.

This general timeline leads to the following deadlines for deliverables; abbreviations are explained below the table:

<table>
<thead>
<tr>
<th>Deliverable</th>
<th>Timeframe</th>
<th>Actor(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Draft timetable and work program for the production of the 3rd DRBMP; draft statement on consultation measures to compliment this timetable and work plan (this document) and draft timetable and work program for the production of the 2nd FRMP; draft statement on consultation measures, timetable and work plan revised as appropriate (this document)</td>
<td>May - Nov 2018</td>
<td>RBM, FP, PP</td>
</tr>
<tr>
<td>Publication of drafts (timetable, work program and statement on consultation measures); and collection of comments in writing for six months</td>
<td>Dec 2018 – June 2019</td>
<td>PP, RBM, FP</td>
</tr>
<tr>
<td>Revision of timetable, work program and consultation measures</td>
<td>Fall 2019</td>
<td>RBM, FP,</td>

4. Annex

4.1 Legal Background

The relevant passages in Water Framework Directive (Directive 2000/60/EC) read as follows (note: the two quoted preambles are not legally binding):

**Preamble 14**
(14) The success of this Directive relies on close cooperation and coherent action at Community, Member State and local level as well as on information, consultation and involvement of the public, including users.

**Preamble 46**
(46) To ensure the participation of the general public including users of water in the establishment and updating of river basin management plans, it is necessary to provide proper information of planned measures and to report on progress with their implementation with a view to the involvement of the general public before final decisions on the necessary measures are adopted.

**Article 14 - Public information and consultation**
1. Member States shall encourage the active involvement of all interested parties in the implementation of this Directive, in particular in the production, review and updating of the river basin management plans. Member States shall ensure that, for each river basin district, they publish and make available for comments to the public, including users:
   (a) a timetable and work programme for the production of the plan, including a statement of the consultation measures to be taken, at least three years before the beginning of the period to which the plan refers;
   (b) an interim overview of the significant water management issues identified in the river basin, at least two years before the beginning of the period to which the plan refers;
   (c) draft copies of the river basin management plan, at least one year before the beginning of the period to which the plan refers.

On request, access shall be given to background documents and information used for the development of the draft river basin management plan.

2. Member States shall allow at least six months to comment in writing on those documents in order to allow active involvement and consultation.

3. Paragraphs 1 and 2 shall apply equally to updated river basin management plans.

**Annex VII - RIVER BASIN MANAGEMENT PLANS**
A. River basin management plans shall cover the following elements:
9. a summary of the public information and consultation measures taken, their results and the changes to the plan made as a consequence;

11. the contact points and procedures for obtaining the background documentation and information referred to in Article 14(1), and in particular details of the control measures adopted in accordance with Article 11(3)(g) and 11(3)(i) and of the actual monitoring data gathered in accordance with Article 8 and Annex V.

The relevant passages in the EU Floods Directive (Directive 2007/60/EC) read as follows (note that a coordination is required “as appropriate”):

**CHAPTER V - COORDINATION WITH DIRECTIVE 2000/60/EC, PUBLIC INFORMATION AND CONSULTATION**

**Article 9**

Member States shall take appropriate steps to coordinate the application of this Directive and that of Directive 2000/60/EC focusing on opportunities for improving efficiency, information exchange and for achieving common synergies and benefits having regard to the environmental objectives laid down in Article 4 of Directive 2000/60/EC. In particular:

1. the development of the first flood hazard maps and flood risk maps and their subsequent reviews as referred to in Articles 6 and 14 of this Directive shall be carried out in such a way that the information they contain is consistent with relevant information presented according to Directive 2000/60/EC. They shall be coordinated with, and may be integrated into, the reviews provided for in Article 5(2) of Directive 2000/60/EC;

2. the development of the first flood risk management plans and their subsequent reviews as referred to in Articles 7 and 14 of this Directive shall be carried out in coordination with, and may be integrated into, the reviews of the river basin management plans provided for in Article 13(7) of Directive 2000/60/EC;

3. the active involvement of all interested parties under Article 10 of this Directive shall be coordinated, as appropriate, with the active involvement of interested parties under Article 14 of Directive 2000/60/EC.

**Article 10**

1. In accordance with applicable Community legislation, Member States shall make available to the public the preliminary flood risk assessment, the flood hazard maps, the flood risk maps and the flood risk management plans.

2. Member States shall encourage active involvement of interested parties in the production, review and updating of the flood risk management plans referred to in Chapter IV.
